

## Quality Policy

Artheon's Commitment to Quality Policy is simple

*“To Provide The Quality And Excellence Of Service Demanded By Our steemed Customers, And To Constantly Strive To Maintain And Improve Our Standards To Ensure We Continue To Be A Qualified And Respected Provider Of Product & Services”*

*Our Commitment to Quality Policy is implemented through documented programs that meet recognized industry standards and the specific requirements of our customers. It is the expressed objective of Artheon is to provide for continual improvement in the quality of our products, processes, and services, which in turn provide increasing values to our customers.*

*We believe that quality is the responsibility of every individual. Our quality programs embrace the teamwork philosophy, vision which involves and requires commitment from every individual. Management supports these programs by providing the tools, training, freedom, and authority necessary to implement quality improvements at all levels of the organization. Management also provides for open lines of communication and feedback to ensure that the programs function properly.*

*Through adherence to, and improvement of, our Commitment to our Quality Policy, we continuously strive to be the leaders in our industry, guided by the core values of trust and integrity.*
